

Research Project FoodAuthent

A pioneer for a harmonised authentication of food

The research project FoodAuthent aims at providing basic principles and incentives for the routine use of fingerprinting analytics in the food sector and the official food control.

Further information on research and partners in the project: www.foodauthent.de/en

The project is supported by funds of the Federal Ministry of Food and Agriculture (BMEL) based on a decision of the Parliament of the Federal Republic of Germany under the innovation support program managed by the Federal Office for Agriculture and Food (BLE). The duration of the project is three years and ends in September 2019.

With support from

by decision of the German Bundestag
